

Queen's Nurse CALL TO ACTION

Goal: improve patient and public health by promoting healthy, sustainable living, reducing carbon emissions and helping prevent a public health disaster.

There is no PLANET B

#Reduce
#Reuse
#Recycle

"We, ourselves, feel that what we are doing is just a drop in the ocean. But if the drop was not in the ocean, I think the ocean would be less because of the missing drop."
From 'Stories Told' by Mother Theresa

Queen's Nurse Personal Action:

- A. To apply at least 3 new lifestyle actions that will help reduce the carbon footprint.
- B. To advocate, encourage & support their patients/clients to apply at least one lifestyle action that will reduce the carbon footprint.
- C. To act as a clinical champion within their own team/organisation/PCN and ensure climate change and actions relating to reduce, reuse, recycle (3 'R's) are a standing item on the agenda.

Regional Queen's Nurse Action:

- A. Work with the QNI to provide stewardship and ensure the risks to public health from climate change is firmly on the QNI's agenda and that it forms an integral part of the organisation's mission and values.
- B. Support a sustainable Quality Improvement Initiative - East Midlands regional Queen's Nurses, will support the QNI's involvement with the Queen's Green Canopy Initiative.
- C. Influence policy and support appropriate procurement of Health Care supplies.
